ETHNICITY

Each applicant is required to indicate his or her ethnic background on the application form. This information is requested solely for the purpose of satisfying Federal reporting requirements and does not affect determination of admission. Several Federal agencies require the University to provide summary data on the ethnic background of applicants, enrolled student population and our faculty and staff. The ethnic designations used by the University for this purpose do not denote scientific definition of anthropological origins. Rather they are used to indicate a general group to which a person appears to belong or identifies with. Determine the one category which you believe best represents your ethnic background, even if it means choosing between two or more categories.
